

ESD-CSP Series

Antistatic Silicone Tape

Technical Data

Product Description

Silicone tape applied to the Tray of Glass, Module, Electronic parts, etc.
 A product consist of Only Silicone pad or laminate silicone by the double-sided tape.
 Durability of abrasion, Tensile strength, and Tear strength is excellent better than foam type.

Construction

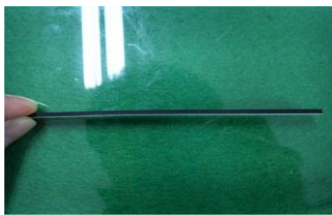

Conductivity Silicone Pad

PET Tape

Features

1. Surface resistance : $10^6 \sim 10^{10} \Omega/\text{sq}$
2. Excellent Durability of abrasion
3. Excellent Adhesion

Application

- Glass, Module Tray
- Electronic part Tray
- Electronic parts protection sheet

Physical Property

Properties		
Color	Visual	Black
Surface resistance (silicone)	Ω/sq	$10^6 \sim 10^{10}$
Hardness	Shore A	60
Tensile strength	Kg/cm^2	>70
Adhesion	$\text{gf}/25\text{mm}(\text{SUS})$	>1,800
